Description:

In small spaces, multi purpose furniture is key. This 42" x 42" desk can easily function as a comfortable dining table for you and your guests. A small file cabinet on wheels provides storage, while fitting comfortably under the desk to allow for more floor space in your room but can be wheeled away with ease when entertaining. The light colour scheme helps to create the illusion of a larger space with light weight furniture.

Description:

A home office should be a comfortable, inviting place to spend your time. Soft, neutral colours can help with concentration and improve the overall feel of the space. Storage and organization is important and storage closed behind doors is a great way to hide clutter and keep a tidy look.
